

EPS Pipeworks Ltd

Environmental Policy Statement

EPS Pipeworks Ltd is committed to achieving environmental best practice throughout its business activities, wherever this is practicable.

It is recognised that the pursuit of a profitable sustainable business and a healthy environment must be closely linked and that ecological protection and sustainable development are collective responsibilities in which EPS Pipeworks Ltd and its employees have a role to play.

EPS Pipeworks Ltd shall adhere to all relevant EU and UK environmental legislation applicable to its business activities.

EPS Pipeworks Ltd will educate and train our staff so that they are able to act in an environmentally responsible manner and fulfil the commitments given in this policy statement.

It shall be the policy when operational procedures are performed to engaging environmentally friendly materials, to prevent pollution, reduce waste, conserve resources and promote recycling wherever practicable.

EPS Pipeworks Ltd recognise, however, that in our day-to-day operations, we inevitably impact on the environment in a number of ways and we wish to minimise the potentially harmful effects of such activity.

We will actively liaise with our clients to consider fully the environmental implications of their and our business and the impact on the environment. We will share environmental related information with our clients and suppliers.

We recognise that environmental risks should be part of the normal checklist of risk assessment and management procedures and planning to minimise any significant adverse environmental impact.
